General Notes

- . We took in \$1689 this year.
 - For comparison, we took in \$3588 in 2007 and \$2010 in 2006.

- . The event took in much fewer items this year than either of the past two years. This was probably due to the following factors:
 - . There was less advertising to undergrads.
 - Last year we had the Senior Class President helping us advertise.
 - I think I flied the undergrad dorms both of the past two years; I didn't do any fliering this year.
 - . We were bumped from the Dod/Brown site to the Witherspoon/Edwards/Little site.
 - Note that the Spelman/Pyne site took in about as much money this year as in 2006.

- . There was insufficient advertising to graduate students.
 - This probably didn't impact the proceeds, but we had fewer volunteers.

- . Various University administrators are interested in helping to expand the event for next year.
 - This includes John Baer, Director of Building Services and Tom Dunne, Associate Dean of Undergraduate Studies.
 - Speak with Raja Chahal, GSG Campus Relations Standing Committee Chair or Annie Twitty, GSG Press Secretary for more information.
 - There will probably be a brain-storming meeting in late summer or early fall to try to expand the event.
