

Minutes for the June 16 GSU Meeting <Pending Approval>

The meeting was convened at 7:05pm by Roberto Lint-Sagarena, GSU chairman.

Item 1: The attendance sheet was distributed and the May 19 minutes (with changes) were approved. Ulli provided a list of additional changes which will be incorporated.

Item 2: Announcements (Mostly concerning the Credit Union)

Dave's efforts with the Credit Union have paid off! Graduate students can now join the union.

Discussion then fell to how to inform graduate students about the windfall. What was decided upon was to distribute fliers at the pizza party this Wednesday at 6:30pm and to have a representative available to respond to questions.

A letter from Dean Wilson arrived explaining the administration's perspectives on the post - enrollment issue.

Item 3: CIT Policies

Many Butler inhabitants evidently aren't eager to have their community converted into a computer cluster.

A desire was expressed for CIT to install more Macintosh computers on campus. Unfortunately, this may be a forlorn hope: CIT is phasing MACs out in favor of the IBM machines.

GC residents have encountered difficulties with remote access. While DORMNET permits an ethernet connection to the campus network, dial in service doesn't exist at the Graduate College. Thus, residents are compelled to rely upon DORMNET.

The Hibben/Maggie complex may ultimately be connected to the ethernet.

Item 4: Remarks on the summer GSU schedule

The assembly decided upon the following meeting dates for summer:

July 21

August 18

Item 5: Report of the Treasurer

Perhaps the most salient item, other than the admission of graduate students to the Credit Union, is the large budget surplus. Approximately \$3300 remains unspent. Details of each budget category are found below.

	Budgeted:	Spent:
-----	-----	-----
Cosponsorship	\$3000	\$3300
GSU Events	\$3000	\$542
Operating Expenses	\$2000	\$781
	-----	-----
	\$8000	\$4626

Item 6: Funding Requests

A set of requests came from the Butler Apartments.

% The amount of \$400 was requested for a weekly aerobics class at Butler. The assembly decided to fund the series of aerobics classes at \$300.

% A request was also made for funding for a Butler barbecue. Since some essential data was absent, the Butler representative agreed to contact the GSU again on the Sunday after the meeting.

Steve Miller presented a funding request for the Breakfast club. The assembly agreed to provide the Breakfast Club with \$200.

Item 7: Report of the Social Chair

Scott is preparing an ice cream social, probably to be held in the Chancellor Green.

Since the Graduate College pizza picnic is this Wednesday at 6:30pm, the more frigid (but no less welcome) ice cream event will likely take place at some time during the following week.

Item 8: Additional Remarks

Scott Harper provided a topic for the next CPUC meeting. During well attended sporting events, \$4.00 is charged to individuals wishing to use the Graduate Student Parking Lot.

The fee is difficult to comprehend for students who use the parking lot on a regular basis, and who have already paid the annual parking fee.

A question about pets arose: Are cats allowed in Lawrence? Evidently not, since a NJ state law permits pets only when a private door to the outside is present.

* The June 16 GSU meeting adjourned at 7:40pm.

As mentioned previously, the next GSU meeting will be held on this Wednesday, July 21.

arrivederci
