

# Princeton University Safety Walk

November 12, 2015

revised 4/14/16

## Observations and Areas for Investigation

### Graduate College (NGC/OGC)

- 1 Investigate upgrading lights on path from NGC to parking lot. *Lighting upgrade completion within 6 months.*
- 2 A) Investigate replacing/moving stop sign on the west side of intersection. B) Investigate upgrading crosswalk to similar systems along Washington and Alexander Roads (mid-block crossing by Forbes). C) Investigate removing parking spot(s) on Alexander Road closest to College Road. Parked car blocks drivers' view when approaching intersection. *Traffic study underway. Changes require municipal approval.*

### Graduate Annexes

- 3 Investigate installation of lights on east side of Alexander Road between College Road and Dickinson Street (currently no lights). *Traffic study needed. Changes require municipal approval. Projected 2017 completion.*
- 4 Investigate possible trip hazard on sidewalk in front of 24 Dickinson Street. *Spring/summer 2016 completion.*
- 5 Investigate upgrading crosswalks on University Place at Dickinson Street and Edwards Place to similar systems along Washington and Alexander Roads. *Traffic study needed. Changes require municipal approval. Projected 2017 completion.*

### Alexander Street

- 6 Replace street light across from Wawa near Forbes College. *Spring/summer 2016 completion.*
- 7 Curb cuts for crosswalk are installed near Skillman Furniture, but no crosswalk markings on street. *Completed.*
- 8 Investigate upgrading lighting on pathway from Faculty Road to Lawrence Road. *Requires coordination with PSE&G and confirmation of funding.*
- 9 Reduce overgrowth in wooded area along pathway from Faculty Road to Lawrence Road. *Spring/summer 2016 completion.*
- 10 Investigate paving unpaved path at intersection of Alexander Road and Lawrence Road. *Violates ADA slope requirement.*

### Lawrence Apartments

- 11 Investigate installation of sidewalk on Lawrence Road after entrance from Springdale Golf Club. Pedestrian access to Building 1 is via street. *Under review by the Office of the University Architect.*
- 12 Prune trees surrounding stop sign at Lawrence Road and Building 1 parking area. *Spring/summer 2016 completion.*

### Lakeside Apartments

Lakeside items within the complex were forwarded to ACC's Lakeside management staff to be addressed.

- 13 Investigate lowering shrubs on the circle at Faculty Road and Elm Drive to improve visibility of oncoming traffic. *Not recommended by University Traffic Consultant.*
- 14 Crosswalk across Elm Drive to north of Faculty Road/ Elm Drive traffic circle does not allow for reasonable reaction time by drivers approaching Elm Drive. *Traffic study underway. Changes require municipal approval.*
- 15 Investigate installation of pedestrian crossing signs at all crosswalks on Faculty Road. *Traffic study underway. Changes require municipal approval.*
- 16 Prune trees and shrubs on path through woods between Faculty Road and South Drive. *Spring/summer 2016 completion.*
- 17 Install lighting on pathway, specifically at bridge, between 151 Taylor Court and Faculty Road. *Completed.*
