Sarah Hutter  
Candidate for CPUC Governance Committee

Thank you for considering my candidacy for an appointment to the CPUC Governance Committee. I am seeking this position as an opportunity to meaningfully engage with the broader Princeton community as an advocate for graduate education. The Governance Committee is tasked with ensuring the smooth function of the Princeton community. Determining what is beneficial to Princeton as a whole is a complicated task requiring the input of a well-informed group of active participants. My training in the behavioral sciences has provided me with opportunities to succinctly synthesize diverse viewpoints into manageable components for discussion. My experience serving on the board of local activities organizations further qualifies me for this position.
