

Brandy Briones

Candidate for Communications Director

Q: What is your position on graduate student unionization?

A:

If I am elected as a representative of the graduate student government, my goal will be to support the needs of the majority of graduate students. I will be a 6th year graduate student during the 2019-2020 academic year, so my personal position on graduate student unionization will not be a factor— my goal is to position the majority of current and future graduate students in the best way possible. I am in support of challenging institutions and norms, as is necessary, and will be an active provider of the resources needed to ensure the graduate student population is well informed. Thank you!
