

Christopher Hale

Candidate for CPUC Rights and Rules Committee

Q: What is your position on graduate student unionization?

A:

As a member of CPUC and the Rights and Rules Committee I would take a neutral stance regarding unionization if the issue were to arise in relation to my duties as a representative of the graduate student community. I support the right of graduate students to decide this issue. I would oppose any changes to the Rights and Rules policies that created unjustified barriers to unionization. I am interested in hearing input from graduate students interested in unionization regarding ways in which the Rights and Rules policies could be changed in ways that might support some of the objectives of unionization (such as improvements to the grievance procedures).
