

Karina Alventosa

Candidate for Vice President

Q: What is your position on graduate student unionization?

A:

As GSG Communications Director, and Lake Campus, Sustainability and Farmer's Market representative, I have been tirelessly advocating for all graduate students this past year and if elected I would be honored to continue to do so. There is a need for more discussion and engagement with all interested parties before a determination can be made as to whether or not unionization is appropriate at Princeton.
