

Leonid Pogorelyuk

Candidate for Academic Affairs Officer

Q: What is your position on graduate student unionization?

A:

In some departments, students are generally funded through their advisors, while in other departments, they mostly rely on teaching scholarships. Before forming an opinion on unionization, I would need to see a survey on this issue, split by departments and funding sources. If I get elected and the students express interest in such a survey, I will work with the GSG communications director to organize it.
