

Leonid Pogorelyuk: GSG Exec – Academic Affairs Officer

As a 4th year student and a member of several committees in MAE, SEAS and the graduate school in general, I have the interdisciplinary experience and cross-departmental connections necessary for a competent Academic Affairs officer. I will maintain close relationship with university administrators to help students with academics issues such as funding and mentoring. Moreover, the university has a large number of resources which could use more advertising. I hope to promote awareness such programs and advocate for their expansion, given input and feedback from students and other GSG members.
