## Candidate for VP of Internal Affairs

*Q: What action items would you like to work on in the coming year?*

A:

- (1) Widely educate grad students on mental health, bias, and sexual misconduct resources via in-person training, printed flyers, and online on the GSG website
- (2) Bring Princeton Distress Awareness & Response to graduate departments so that students, staff, and faculty can better support others in distress
- (3) Continue the Graduate Mental Health Initiative by supporting an expanded Graduate Mental Health Week and continuing work on a longitudinal, rigorous survey of grad mental health
- (4) Continue advocating for extension of SHP coverage for students on medical leave & improved coverage of labor/delivery costs
- (5) Provide internal support for GSG projects

*Q: What is your position on graduate student unionization?*

A:

The GSG is prohibited from taking a position on unionization. As such, I see GSG's role as primarily to provide independent, balanced, and non-partisan information on unionization (as in our [2017 Report on Unionization at Peer U.S. Universities](#)), as well as to facilitate discussions of unionization on campus, such as town hall discussions or panels with speakers from both pro- and anti-unionization activists.
