## Candidate for Social Officer

*Q: What is your position on graduate student unionization?*

A:

The social officer's job has three parts: planning small/ongoing social events, assisting the special events chair for large events, and being a liaison between GSG and grad student groups. Both pro- and anti-unionization groups exist, and in my role as liaison, I would not allow my personal views to affect either side's relationship with GSG; that would not be fair or ethical. In short, I do have my own views on unionization, but they would not be relevant to my duties nor would they influence how I would carry out my role.
