

## Molly Chaney: GSG Exec. – Social Officer

Hi! I'm Molly and I'm a third year in Civil & Environmental Engineering. Those who know me know that planning and hosting social events is probably my favorite thing to do. Having regular, well-attended, and \*fun\* social events is something that I think is very special and unique to Princeton graduate school, and I want to keep that going. I want to continue with events that have had positive reception in the past and also experiment with new ones. I have experience organizing events, reserving spaces, ordering event food and catering, budgeting for and purchasing supplies, and registering events with the graduate school. Additionally, I served as social chair for two clubs during my undergrad. I hope you pick me for social officer, and if you do, I promise you'll be glad you did. Thanks for reading, and happy voting!
