

Zhiwu Zheng

Candidate for Academic Affairs Officer / CPUC Judicial Committee

Q: What is your position on graduate student unionization?

A:

Unionization emerges from many current issues. Since the University clearly oppose unionization (Ref. [\[1\]](#)) and it is not the only approach, GSG as a bridge to the University, just directly being contrary is unwise for problem-solving. Moreover, as GSG itself is also to unite our students ("Princeton Graduate Student Union" in the past (Ref. [\[2\]](#))), the first-and-best step is to represent and support our students to talk with the University. If elected, I would push the cases faster: draft proposals including the ones in my statement (Ref. [\[3\]](#)) for discussion with the University after democratic approval for voice of the whole community.
