

# **Tiffany Chen**

## **Candidate for Special Events Officer**

*Q: What is your position on graduate student unionization?*

A:

I believe that extensive discussion, collaboration, and consideration across departments and with the university administration is necessary to generate a carefully thought-out and viable plan for unionization. While these discussions can be facilitated by the GSG, I understand that the GSG is not allowed to take a position on graduate student unionization and would adhere to this rule as a GSG representative.
