The GSG Executive Committee will draft a detailed agenda, which will be made available to the GS Assembly and the general graduate student population on the day we would typically have our in-person assembly meeting. Assembly members and graduate students will have two days to make comments or ask questions about any agenda items. The Executive Committee will respond to these comments by the following Sunday, and a summary of the discussion will be sent to the GS Assembly by the following Wednesday.
 - C. Votes will be conducted digitally by the Communications Director.

- II. There have not been any discretionary expenditures since the last Assembly meeting.
